

TechForGood 2026

Summer Internship Programme – Orientation Session

Conducted by

IEEE Student Branch, MIT ADT
University

In Collaboration With

IEEE Maharashtra Section &
IEEE Region 10

Date

26 May 2026

Welcome Interns!

We are excited to have you join the **TechForGood 2026** journey. This internship is designed to empower you with the skills, mindset, and experience to make a real difference through technology.

Practical Skills

Build hands-on technical expertise through real project work

Innovation Thinking

Encourage research-driven and creative problem solving

Real-World Solutions

Create technology-driven solutions for societal challenges

Professional Growth

Promote collaboration and career development

"Advancing Technology for Humanity"

Programme Overview

Internship Details

Duration

1 Month

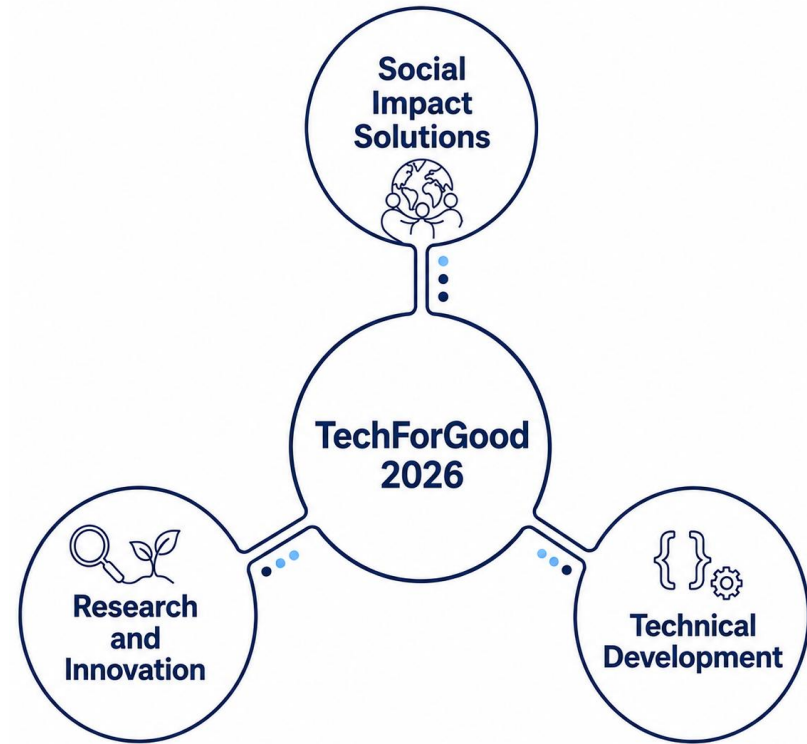

(The duration can be extended by up to 15 more days if the interns need additional time to complete the work)

Dates

June 1 – June 30, 2026

Mode

Fully Remote

What You Will Gain

The TechForGood 2026 internship is structured to give you a comprehensive learning experience across technical, research, and professional dimensions.

Hands-On Project Experience

Work on a real, functional project from ideation to delivery

Research & Innovation Exposure

Develop a research mindset and explore innovative approaches

Team Collaboration Skills

Learn to work effectively in a distributed, remote team

Mentor Guidance

Receive expert mentorship and industry interaction throughout

Problem-Solving Experience

Tackle real-world challenges with structured thinking

Internship Completion Certificate

The teams that meet the eligibility criteria will receive an internship completion certificate

Team Structure

Team Formation Guidelines

All internship work is conducted in teams. Individual participation is **not permitted**. Teams are expected to maintain a high standard of collaboration and professionalism throughout the internship.

Note: We have observed that some of the registered teams have only a single member. Such teams are being merged with other teams that are also single-member teams.

1

Team-Based

All participation must be in a team

2

2-4 Members

Each team must have between 2 and 4 members

3

Collaboration

Maintain active and professional teamwork

4-Week Internship Timeline

Expectations From Interns

To ensure a productive and professional internship experience, all interns are required to meet the following participation standards throughout the programme.

→ Orientation Attendance

Attend the mandatory orientation session at the start of the programme

→ Weekly Review Meetings

Participate in all scheduled weekly review and progress meetings

→ Mentor Interaction

Engage with your assigned mentor every week for guidance and feedback

→ Continuous Progress Updates

Provide regular updates on project progress to the team and mentors

→ Professional Communication

Maintain respectful, clear, and timely communication at all times

Deliverables

Every team must submit the following deliverables by the end of the programme. **Incomplete submissions will not be considered for certification.**

01 — Functional Project

A working Minimum Viable Product (MVP) demonstrating your solution to the chosen problem

02 — Technical Report

Comprehensive documentation covering design decisions, methodology, implementation, and outcomes

03 — Research & IP Outcomes

Publication and intellectual property opportunities including Journal Papers, Conference Papers, Patents, and Copyrights based on impactful project work.

04 — Project Demo Video

A recorded demonstration of your project showcasing its features and real-world applicability

Note:

Any work carried out during the internship—whether technical, creative, or research-based—may only be published or disclosed in the form of a journal paper, conference paper, patent, copyright, or any other medium with prior written permission from the IEEE MIT ADT University Student Branch. This is to ensure proper acknowledgment, confidentiality, and ethical standards are maintained.

Code of Conduct

All interns are expected to uphold the highest standards of professional and ethical behavior throughout the TechForGood 2026 programme.

Academic Integrity

Maintain honesty and originality in all work submitted. Plagiarism in any form is strictly prohibited.

Respect & Inclusivity

Treat all mentors, teammates, and organisers with courtesy and respect at all times.

Ethical Development

Follow responsible and ethical practices in all technical development and research activities.

Professional Communication

Communicate clearly, professionally, and constructively across all channels and interactions.

Certification Criteria

To successfully complete the TechForGood 2026 internship and receive your certificate, all of the following criteria must be fulfilled.

01

Active Participation

Consistent engagement throughout the full duration of the programme

02

Mandatory Session Attendance

Attend all required orientation and review sessions & submit the weekly progress reports.

03

Complete All Deliverables

Submit the MVP, technical report, and demo video on time

04

Final Project Presentation

Present your project to mentors and the review panel

Additional Opportunities & Benefits

Beyond the Internship

Awards & Recognition

- Best Project Award
- Highest Social Impact Project Award

Learning Sessions

Technical and development sessions during the internship for intern growth

Special Opportunities

Exceptional interns may get opportunities to work on emerging technology projects

Thank You

We look forward to seeing your creativity, innovation, and impact.
